

Fabrication Lead | Aluminum Plant

About this Position:

We currently have openings in our aluminum plant for a Fabrication Lead. We are looking for good people with a team attitude and the ability to work in a fast-paced environment. If you want to be a part of the team that is producing the industries finest welded aluminum docks, boatlifts, and accessories, we would love to hear from you.

About this Position:

This position is responsible for the fabrication area. This is a working Lead position. Safety is always #1 and ShoreMaster leads the way when it comes to workplace safety. You will have the opportunity to cross-train and be an integral part of ShoreMaster's company-wide culture of process improvement. With a 4 day, 40-hour workweek, you get Friday's off to relax and unwind, and there is the potential for overtime as well - so you get the best of both worlds!

You job duties will be:

- Learn to run & have thorough knowledge of all of the equipment in the fabrication area
- Ensure work flow
- Coordinate with welding and fabrication supervisors/ leads
- Track inventory and maintain work orders
- Provide employees with necessary information, tooling and supplies
- Review pick lists and check on available materials
- Quality control inspections
- Report and track production errors
- Employee training & evaluations
- Time approvals
- Coaching and counseling
- Strictly follow safety policies, procedures, rules and safe work methods, along with making safety suggestions to support continuous improvements in safety
- Contributing to continuous improvement including following safety procedures and rules, and making safety suggestions, and working with team members to improve processes
- Other duties as assigned

Skills & Qualifications:

- Knowledge of product
